

Connecting to the Wireless Network (Eduroam)

eduroam allows staff and students to take their wireless devices to other educational institutions worldwide, that support eduroam, and connect using their De Montfort University username and password. You can access eduroam where you see this logo.

How to connect to eduroam using Windows Phone 8 Devices

- Swipe to the left at the home screen and go to the **App List**.

- Press **Settings**

- Press **WiFi**

- Enable **WiFi** if it isn't already.

- Press **eduroam**

- Enter the following details:

UserName

Students: P-number@dmu.ac.uk e.g. P1234567@dmu.ac.uk

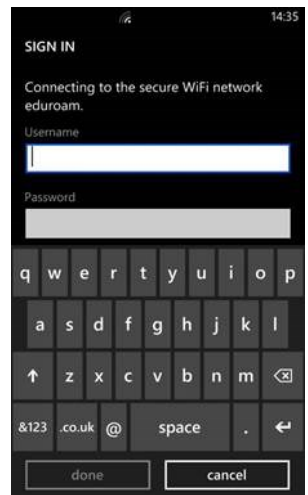

Staff: username@dmu.ac.uk e.g. fblogs00@dmu.ac.uk
(not your email add)

Password

Normal myDMU or staff portal password

- Press **Done**

- Press **Yes**

- You should now be connect to eduroam Wi-Fi

Password Changes

If your password changes you will need to update **eduroam**

- Go to **Wi-Fi** from your **settings**
- Select **eduroam** for 2-3 seconds so that the delete option appears.
- Select **Delete** and then follow this user guide again to setup with a new password.

If you are having difficulties in connecting your device please contact:
ITMS Service Desk on Ext: 6050 Or Itmsservicedesk@dmu.ac.uk
